**BIO SECURITY RULES**  
**HARRISON & HETHERINGTON LIMITED, BORDERWAY MART, CARLISLE**  
**Notice to all Visitors and Traders**

**Please read and observe the following:**

- Excessive dirty vehicles will not be allowed entry, therefore ensure vehicle is clean before arrival.
- All vehicles transporting livestock will be subject to a documentation check before entry to market site.
- All visitors and traders must ensure they wear clean clothing and footwear before entering market site.
- All visitors and traders using car park areas please use main entrance.
- Hauliers and farmers delivering livestock must disinfect their boots before and after loading or unloading.
- Livestock purchased or unsold will not be allowed to move unless an authorised "pass slip" has been issued by the main office.
- No livestock will be allowed to remain on the premises after a sale.
- Only staff, livestock hauliers, owners or their agents are permitted to load or unload livestock.
- Wash hands thoroughly when leaving penning areas.
- Please observe our staff's instructions at all times.

**Our on site Biosecurity Officer, Stuart Graham, will only be too pleased to give you assistance.**

| <b>SALE</b> | Aberdeen Angus 11.30am |
|             | British Blue 12.30pm   |
|             | Beef Shorthorn 12.45pm |

**HOTELS:** There are many hotels within the area, ranging from four star to excellent Bed and Breakfast accommodation, a list of which may be found on page 4 of the catalogue

**ABERDEEN ANGUS CONDITIONS OF SALE** - The Aberdeen Angus Cattle Society have adopted the Auction Rules and Conditions of Sale drawn up by the N.B.A. This Sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail.

**BRITISH BLUE CONDITIONS OF SALE** - The British Blue Cattle Society have adopted the Auction Rules and Conditions of Sale drawn up by the N.B.A. The Sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail. Copies available on request from the British Blue Cattle Society.

**BEEF SHORTHORN CONDITIONS OF SALE:** The Beef Shorthorn sale is a Society Supported Sale and will be sold under the Livestock Association Conditions of Sale.

**INSURANCE:** A representative of H & H Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

**METHOD OF SALE:** All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

**COMMISSIONS:** The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

**REGISTRATIONS:** All stock in the sale are registered with the respective breed societies.

**PEDIGREE TRANSFERS:** Official Pedigree Transfer will be effected by the Auctioneers and the Aberdeen Angus and British Blue Cattle Societies as soon as possible after the Sale. Full Aberdeen Angus pedigrees will be transferred free of charge to all members. Full British Blue pedigrees will be transferred at a fee of £13.90 (+ VAT) payable by the vendor.

**SETTLEMENT AND CLEARANCE OF STOCK:** Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

**ANIMAL WELFARE:** Vendors and Purchasers should note the CODE OF PRACTICE published by the Livestock Auctioneers' Market Committee for England and Wales IS OPERATIVE IN BORDERWAY MART and that weakly, unhealthy or injured stock will be refused entry by the Auctioneers. Enquiries should be directed through the market office to the Auctioneers' ANIMAL HEALTH and WELFARE OFFICER (Mr Andrew Templeton).

## Important Notice to Vendors

**ARRIVAL OF STOCK:** As per timetable of events (page 6).

**ABERDEEN ANGUS PRE-SALE INSPECTION:** "All animals (except in the case of bona-fide dispersals) are subject to pre-sale inspections by The Aberdeen Angus Cattle Society in order to establish identity and to prove a minimum standard. Such inspections however do not imply any liability or warranty by The Aberdeen Angus Cattle Society for animals sold, such liability remains the responsibility of the vendor. Animals are sold with all patent defects and any subsequent claim is against the vendor and not The Aberdeen Angus Cattle Society."

**BRITISH BLUE PRE-SALE INSPECTION:** All animals entered for the sale must be available for inspection in the sale premises by a panel of inspectors, including a qualified Veterinary Officer. The Inspectors will have regard to general health and genetic defects, particularly mouth, teeth, eyes, testicles, locomotion and general conformation. Any animal discovered with a genetic fault, disease, disorder or is considered by the panel to be not in a proper and healthy condition to be presented as representing a good specimen of the breed will be REJECTED and the Entry Fee forfeit. Animals will be placed in a crush for this inspection - as required by the inspectors. **No pedigree or grade registered stock, entered for the sale, shall have horns.**

Two Society Members will form an appeal committee, one of whom will be a society council member. The appeal committee will be elected prior to the sale. If any exhibitor feels the need to formally lodge an appeal against the result of an inspection, they must from the beginning speak ONLY to the Chief Inspector. He will then ask for a deposit of £20 from the exhibitor. The appeal committee will then carry out their own inspection of the animal and their decision will be final. The deposit will only be returned if the appeal is successful.

**BEEF SHORTHORN INSPECTION** - as the sale is a Society Supported Sale, no official Society inspection procedure is required. There will only be an Identification Inspection of the sale cattle.

**UK TAGS/TATTOO MARKS** - All cattle entered for the Sale will have their UK Tags/Tattoo marks examined as an integral part of the pre sale inspection procedure. Any marks found to have faulty, incorrect or illegible marks will be REJECTED from the Sale. Vendors are therefore urged, in their own best interests, to examine the UK Tags/Tattoo marks of Sale cattle before the animal(s) leave their farm, so that faulty marks can be rectified in accordance with the required Society procedures.

**UPSET PRICES** - There will be an "upset" price of 1800gns on Aberdeen Angus bulls and 1500gns on British Blue bulls presented for sale - i.e. if no opening bid is received for any particular lot that lot will be passed out of ring unsold.

**RESERVE PRICES:** Vendors shall have the right to refuse to accept the final bid for their animals, or to fix a Reserve Price, which must be notified to the Auctioneers in writing before or at the time their animal enters the Sale Ring. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price. All animals will be sold in guineas (105 pence) and a commission of 5% will be charged by the Auctioneers on all sales.

**ABERDEEN ANGUS CATTLE** – A further 1½% will be charged and paid as levy by them to the Aberdeen Angus Cattle Society.

**BRITISH BLUE CATTLE** - The British Blue Cattle Society's Sale levy, amounting to 1% of sale price, will be deducted by the Auctioneers from the proceeds of sale.

**BEEF SHORTHORN CATTLE** - if the purchaser requires the pedigree to be transferred into their ownership, the purchaser will be required to pay a fee of £25 + VAT

No animal may be sold privately before being passed through the Auction Ring and FULL COMMISSION will be charged on the sale of any animal sold by private treaty after the auction. All such transactions MUST BE PASSED THROUGH THE AUCTIONEERS OFFICE.

**PRIZE MONEY:** Will be withheld unless the winners are sold, either by auction or private treaty.

**STRAW:** A limited amount of bedding straw will be provided by the Auctioneers free of charge. Additional Straw, if required, may be purchased from the Auctioneers.

---

# When looking for value, we'll give you more

At H&H Insurance Brokers, we know that it's not just the price of your policy, or the level of cover it provides that's important.

That's why with us, we give you more than just access to the widest range of insurers, we also negotiate on your behalf to ensure you get exactly the right policy – and at the best possible price.

And with ongoing expert advice provided for free, we're fast becoming the insurance broker of choice for the region's agricultural community.

Why not speak to one of our farm insurance experts today on 01228 406 290 for a 'no obligation' quote.

# RETIRAL SALE FROM THE RUGLEY HERD

*Lots 220 - 241 (22 entries)*

The Rugley pedigree Aberdeen Angus Herd was established by Alan & Lorna Jackson in 2003 with the purchase of 2 heifers from the Whitfield herd.

The aim was to breed a closed Herd concentrating on the improvement of High Performance Bulls.

All bulls used in the Rugley Herd have been homebred with the surplus being sold privately.

In 2004 embryos were imported from the USA resulting in the birth of 3 heifers in 2005.

The purchase of Blackhaugh Ribmaker H788 in 2009 has had a tremendous impact on the Herd producing high growth rates and easy fleshing.

More recently, Blackhaugh Jerefocus Eric 176 has bred consistently.

The young stock and many of the calves are sired by Rawburn Knight S314 who has an impressive +124 kgs at 400 days, a Terminal Index of +55 and a Self- Replacing Index of +67.

The cows have always been run as part of the Commercial Suckler herd and are shown in natural condition. We hope they continue to breed successfully for their new owners.

As our intended retiral date approaches we are delighted that our daughter Lucy is able to carry on farming at Rugley, however this transition has resulted in some rationalisation and we have made the decision to sell all but 2 of our Aberdeen Angus herd with only 2 older cows being retained.

**DRIFT DOMINO (SR)** is by **Twynning Ash Troy (SR)** and out of **Cowden Blackberry (ET)**. His sons include **Highridge Blues Iron Man ET** who sold for 4,800gns Carlisle Jan 2016. **Homilton Jaguar** who sold for 7,000gns Carlisle May 2016. **Halfield Mojo** who sold for 900gns Carlisle May 2019.

**EMPIRE D'OCHAIN (SR) (IS).** Empire weighs 1500kgs and is well known for high growth rates and size. His sons include **Parsonage Drew** who won the Progeny Group with **Solway View Drambaie ET** (heifer) Border Club's Calf Show February 2009. **Tamhorn Crackerjack ET** (reserve intermediate male champion) who sold for 16,000gns. **Greystone Cannon** who sold for 11,000gns & **Brookfield Columbus ET** who sold for 10,000gns Carlisle May 2009; **Ballyhosssett Duke** (male & supreme champion) who sold for 10,500gns & **Ridge Dean Dynamite ET** who sold for 7,000gns Carlisle September 2009; **Sharplaw Engineer ET** who was reserve male champion Border Club Calf Show February 2010; **Ridge Dean Dynamo ET** (male & supreme champion) who sold for 9,000gns, **Ridge Dean Delta ET** who sold for 9,000gns, **Woodview D Best ET** who sold for 7,800gns, **Woodview Dave ET** who sold for 6,200gns & **Ridge Dean Dumbledore ET** who sold for 5,500gns Carlisle February 2010; **Arcana Dynamite ET** who sold for 7,500gns Carlisle May 2010; **Harestone Excalibre ET** who sold for 6,900gns, **Black N Blue Emperor ET** (male and supreme champion) who sold for 5,400gns & **Droit Dexter ET** who sold for 4,400gns Carlisle October 2010; **Norbeck Fergus** who was overall champion Border Club Calf Show Agri-Expo 2010; **Lyonpark Fortitude ET** was the male and overall champion at the Border Club's Annual Calf Show February 2011; **Belmore Emperor ET** Who Sold For 7,000gns Carlisle May 2011; **Tamhorn Ferdinand ET** who sold for 6,000gns Carlisle October 2011; . **Rathlyon Dave ET** who sold for 6,800gns & **Seaclan Duke ET** who was Male Champion and Reserve Overall Champion and sold for 6,200gns Carlisle January 2012. **Tanat Guardsman ET** who was male champion Border Club Calf Show February 2012. **Littlebank Fredie ET** who was Reserve Senior Champion and sold for 8,300gns, **Owlden Firebolt ET** who sold for 7,500gns and **Glenpark Frome ET** who sold for 6,000gns Carlisle May 2012. **Drews Goliath ET** who sold for 6,500gns Carlisle October 2012. **Osborne Flash** who sold for 6,500gns Carlisle January 2013. **Almeley Giggs ET** who sold for 7,000gns and **Graymar Gladiator ET** who sold for 6,000gns Carlisle May 2013. . **Franks Hugger Muger ET** who was Male and Supreme Champion and sold for 9,000gns Carlisle October 2013. **Newton Blues Geordie ET** was reserve Male Champion and sold for 5,200gns Carlisle January 2014. **Graymar Highflyer ET** who sold for 5,000gns Carlisle May 2014. **Kingside Inka Warrior ET** who sold for 5,200gns Carlisle Jan 2015. **Droit Irishman (ET)** who sold for 6,800gns Carlisle May 2015. **Littlebank Jimmy** who sold for 9,200gns Carlisle Jan 2016. **His daughters include Croftends Emma ET** who was overall champion Border Club Calf Show Agri-Expo October 2009 & female and overall champion Border Club Calf Show February 2010; **Low Longthwaite Diamond ET** who sold for 3,000gns Carlisle October 2010; **Graymar Fantasy ET** who sold for 5,500gns, **High Moss Darth Vadar ET** who sold for 3,700gns and **Penpeugh Elite** who sold for 3,500gns Carlisle May 2011; **Croftends Georgia ET** who was female & overall champion Border Club Calf Show February 2012. **College Valley Goldie ET** who sold for 2,800gns at the College dispersal Carlisle May 2012. **Drumlone Fancypants ET** who sold for 6,600gns Carlisle May 2012. **Drumlone Fanfare ET** who sold for 4,500gns and **BLACK N Blue Fc UK Two** who was Reserve Female Champion and sold for 4,500gns and **Sharplaw Foxy Lady ET** who sold for 4,200gns Carlisle May 2012. **Lukeroyal Giggle ET** who was Female Champion and sold for 2,600gns Carlisle October 2013. **Tweeddale Enhance ET** who sold for 4,500gns Tweeddale Dispersal Carlisle August 2015. **Dinmore Justina ET** who sold for 2,600gns Carlisle Jan 2016. **Owlden Imogen ET** who sold for 4,200gns Carlisle Jan 2018.

**GALOPEUR DES HAYONS** is by **Christophe de l'Abbaye** and out of **Elite des Hayons**. He is all blue and one of Belgium's top sires. His sons include **Harperland Johnboy** who sold for 4,200gns Carlisle May '94; **Lenborough Lancelot ET** who sold for 4,000gns & **Wester Walston Laser ET** who sold for 4,000gns Carlisle September '95; **Grahams Legend** who sold for 3,000gns Carlisle Oct'96; **Brookfield Mario ET** (overall champion) who sold for 10,500gns Carlisle May'97; **Brookfield Monty ET** who sold for 7,500gns Carlisle Oct'97; **Brookfield Nero ET** who sold for 3,900gns Carlisle May'98; **Bonerbo Oberon ET** who sold for 3,500gns Carlisle September'98; **Brookfield Patrase ET** who sold for 6,200gns Carlisle Sept'99; **Brookfield Pentti ET** who sold for 4,600gns, **Valley Panache** who sold for 4,600gns, **Brookfield Peterson ET** (Border Clubs inaugural calf show male champion March'99) who sold for 3,600gns, **Croft Perfection** who sold for 3,200gns and **Dan Morland Patrick ET** who sold for 3,200gns Carlisle May'00; **Springfield Solomon ET** who sold for 6,000gns Carlisle May 2002; **Brookfield Wellington ET** who sold for 4,800gns Carlisle September 2006. His daughters include **Lenborough Laurel ET** who sold for 2,500gns (Lenborough Production) Carlisle May'97; **Bonerbo Orchid ET** who sold for 2,500gns Carlisle May'99; **Ovatie Van De Wolvendree** who was supreme champion Cheshire County show 1999 and reserve champion Westmorland County Show 2002; **Astbury Oyster ET** who sold for 3,000gns Triple Blue Breeder's Sale Carlisle 2000; Navaja des Pres who was supreme champion Ayr show 2000.

**GITAN DU P'TIT MAYEUR** is by **Cubitus Du Pre Rosine**. He is quite a new bull, but his sire **Cubitus** needs no introduction. **Gitan** is a very well muscled blue and white bull. He is +10 to 10 for height. His sons include **Annanwater Brock ET** who won Male Champion calf at the Border Belgian Blue Club's Eighth Annual Calf Show Carlisle February 2007; **Bridgend Blues Alexander ET** who sold for 6,800gns Carlisle May 2007; **Betws Byron** who sold for 9,500gns & **Oak Tree Battleship ET** who sold for 6,500gns Carlisle May 2008; **Gregmaur Bunnamohau** who won Supreme Champion and sold for 6,000gns Carlisle October 2008; **Headlind Bobo** who sold for 8,000gns & **Strathearn Carvalho ET** who sold for 8,000gns Carlisle May 2009; **Franks Double Irish ET** who sold for 4,400gns Carlisle September 2009; **Oak Tree Cracker ET** who sold for 5,500gns & **Solway View Danny ET** who sold for 4,000gns Carlisle February 2010; **Gass Cheggers** who won Reserve Senior Male Champion and sold for 16,000gns, **Droit Denver ET** who sold for 11,000gns, **Bringlee Derry ET** who sold for 10,000gns, **Moorsley Edge ET** who sold for 8,800gns, **Solway View Dexy ET** who sold for 7,000gns & **Littlebank David ET** who sold for 6,500gns Carlisle May 2010; **Keasden Head David ET** who sold for 6,000gns Carlisle May 2011; **Droit Ebenezer ET** who sold for 8,000gns & **Solway View Extreme ET** who won Male and Supreme Champion and sold for 7,000gns Carlisle October 2011. **Droit Fabulous ET** who won Junior Male Champion and sold for 6,500gns Carlisle May 2012. **Solway View Fancy Mover ET** who sold for 5,200gns Carlisle October 2012. **Springhill Geronimo ET** who sold for 5,500gns Carlisle October 2013. **Drumlone Hullabaloo** who sold for 5,000gns Carlisle May 2014. **Rhymil Jagerbomb ET** who won Supreme Champion and sold for 12,000gns Carlisle May 2016. **Solway View Legend ET** who was Reserve Male Champion and sold for 5,500gns Carlisle Jan 2018. **Solway View Legacy ET** who sold for 5,000gns Carlisle May 2018. His daughters include **Annanwater Bina ET** who won Supreme Champion calf at the Border Belgian Blue Club's Eighth Annual Calf Show Carlisle February 2007; **Annanwater Abbie ET** who sold for 3,500gns Carlisle May 2007; **Lakeview Cracker ET** who won Female Champion and sold for 5,000gns, **Lakeview Classic ET** who sold for 5,000gns Lockerbie October 2008; **Maidenlands Crystal** who sold for 6,400gns Carlisle October 2008; **Franks Daffodil Dream ET** who won Reserve Female Champion and sold for 3,500gns, **Franks Double Take ET** who sold for 3,200gns Carlisle September 2009; **Lyonpark Evlien ET** who won Reserve Overall Champion Border Club Calf Show Agri-Expo October 2009 & Reserve Overall Champion Border Club Calf Show February 2010; **Lyonpark Evlien ET** who won Reserve Female Champion and sold for 5,000gns Carlisle October 2010. **Andys Gazelle** who sold for 2,600gns Carlisle January 2014. **Tweeddale Hester** who sold for 6,800gns and **Tweeddale Hooch** who sold for 6,000gns Tweeddale Dispersal Carlisle August 2015. **Droit Janelle ET** who won Reserve Supreme and Female Champion and sold for 6,000gns Carlisle May 2016. Recipients with calves at foot include **Annanwater Abbie ET** (Heifer) who sold for 4,500gns May 2006. **College Valley Electra ET** who sold for 3,000gns at the College Dispersal Carlisle May 2012. **Balzer Forget Me Not ET** who sold for 5,000gns, **Faughanvale Hazel ET** who sold for 3,400gns and **Annanwater Duo** who sold for 3,200gns Carlisle May 2012. **Solway View India ET (Heifer)** who sold for 3,900gns Carlisle October 2013.

**GREGMAUR OSMAN** is by **Hazelwood Freshman ET** and out of **Bosworth Greg Francesca ET (by Policier D'once)**. His sons include **Aultmore Gomez ET** who sold for 5,100gns Carlisle May 2014. **Aultmore Jumbo ET** who won Reserve Male Champion and sold for 12,000gns Carlisle May 2015.

**KUBITUS DE BRAY (IS)** is by **Empire D'Ochain (IS)** and out of **Humaine Et De Bray**. His sons include **Gregmaur Imperial** who sold for 7,200gns Carlisle May 2015. **Brennand Nightshade** who sold for 5,000gns Carlisle Jan 2019.

**LANGOUREUX DE FOOZ (IS)** is by **Bringlee Blackstar (ET)** and out of **Gloire De Fooz**. His sons include **Windmill Krumpet ET** who sold for 5,500gns Carlisle May 2017.

**MOUNTJOY UTOPIA** is by **Twynning Ash Nimrod** and out of **Park Popped Out**. He is a producer of well fleshed easily born calves. His sons include **Kersey Captain** who sold for 3,600gns Carlisle October 2008; **Auchenlay Coll** (junior and reserve overall male champion) who sold for 13,500gns & **Auchenlay Celt ET** who sold for 11,200gns Carlisle May 2009; **New Close Daz ET** who sold for 5,100gns Carlisle October 2010; **Auchenlay Eriskay ET** who sold for 8,400gns Carlisle May 2011. **Droit Franco ET** who sold for 14,000gns Carlisle May 2012. **Springfield Gunnar** who sold for 5,500gns Carlisle May 2013. **Droit Hector** who sold for 13,000gns, **Auchenlay Hunter ET** who sold for 8,200gns, **Auchenlay Hex ET** who sold for 5,600gns and **Oak Tree Herbie** (Reserve junior Male champion) who sold for 5,500gns Carlisle May 2014. **Meadowrig Iceman** who sold for 6,000gns Carlisle Jan 2015. **Tweeddale Intrest** who sold for 5,500gns Carlisle May 2015. **Luce Water Just The Man** who sold for 5,200gns Carlisle Sept 2016. **Brownridge Blues Kingpin** who sold for 6,500gns and **Luce Water Just The Man** who sold for 5,000gns Carlisle Jan 2017. **Auchenlay Knight** who was Junior Male Champion and sold for 6,300gns Carlisle May 2017. **Droit Max** who sold for 11,000gns Carlisle May 2019. Recipients with ET calves at foot include **Bringlee Dauphine ET (heifer)** who sold for 3,000gns Bringlee Sale Carlisle January 2009. His daughters include **Willnant Gina ET** who was Female Champion and sold for 5,000gns Carlisle October 2012. **Glenpark Gilly ET** who sold for 3,200gns Carlisle May 2013. **Tweeddale Izzy** who sold for 4,600gns Carlisle May 2014. **Tweeddale Intelligent** 3,000gns Carlisle May 2014. **Tweeddale Jessie J** who sold for 7,000gns, **Tweeddale Imelda** who sold for 5,300gns **Tweeddale Jussy** who sold for 5,200gns, **Tweeddale Idee** who sold for 5,100gns and **Tweeddale Jezabel** who sold for 5,000gns Tweeddale Dispersal Carlisle August 2015. **Newroddige Jemima ET** who was Female Champion and sold for 3,800gns Carlisle oct 2015. **Droit Julie ET** who sold for 5,000gns Carlisle May 2016.

**SEDUISANT DE FOOZ (IS)** is by **Brulot de Somme** and out of **Ninette de Fooz**. His sons include **Ridge Dean Springer** (reserve junior male champion & joint top price) who sold for 10,000gns Carlisle May 2002; **Penygelly Stormer** who sold for 4,100gns Carlisle October 2002; **Tamhorn Torroero ET** who sold for 4,000gns and **Mountjoy Trooper ET** who sold for 3,800gns Carlisle May 2003; **Woodview Victor ET** who sold 5,200gns and **Woodview UK ET** who sold for 3,200gns Carlisle May 2004. His daughters include **Ty Isaf Rhiwhelen** who was champion Oswestry show 2002; **Knowehead Rachel** who was reserve champion Ballymena show 2002; **Woodview Star** who was reserve champion Ballymoney show 2002; **Ridge Dean Saver ET** who sold for 4,000gns at the 'Wilde about Blues' sale Carlisle August 2002; **Tamhorn Tess ET** who sold for 3,000gns at the 'Premier Pedigree Female Show & Sale' Carlisle November 2002; **Beckfarm Una** (Female Champion) who sold for 3,400gns Carlisle May 2003; **Douce De Fooz** (overall female champion & reserve supreme champion) who sold for 4,200gns Carlisle May 2004; **Woodview Sue ET** who was reserve champion RASE & champion RHAS 2007. **Woodview Uni ET** with her heifer calf at foot **Woodview Black Girl** who sold for 6,800gns, **Woodview Unice ET** with her bull calf at foot **Woodview Bernie** who sold for 3,000gns at the 2nd Production Sale from the Woodview Herd Carlisle June 2006; **Hemingsby Annie** who sold for 3,200gns Carlisle May 2007. Recipients with calves at foot include **Annanwater Willow ET (Heifer)** who sold for 2,100gns Carlisle May 2005.

**STONEBYRES HARTLEY (SR)** is by **Tamhorn Enterprising ET** and out of **Boothlow Cassie**. His progeny include **Goodyhills Kasabian** who sold for 4400gns Carlisle September 2016, **Goodyhills Lulu** who sold for 3400gns Carlisle May 2017, **Goodyhill Libby** who sold for 3000gns Carlisle September 2017, **Goodyhills Maverick** who sold for 6,000gns Carlisle May 2018, **Pendle Naomi** who sold for 3200gns Carlisle January 2019.

**TAMHORN SUMO (SR) ET** is by **Affute De Ry Ossogne (IS)** and out of **Leverhulme Nimbus ET**. This all white bull was male champion RASE 2003 and is in the top 1% of breed for Beef Value (BB35). His sons include **Tamhorn Unity ET** who sold for 5,000gns Carlisle May 2004; **Tamhorn Ulysses** who sold for 7,000gns Carlisle Sept'04; **Stowbeck Wilson** who sold for 6,500gns Carlisle May 2006; **Paulern Verdi ET** who sold for 4,000gns Carlisle September 2006; **Tamhorn Count ET** who sold for 7,000gns Carlisle May 2009; **Tamhorn Flanker ET** who sold for 10,000gns Carlisle May 2011; **Norton Eddy ET** (reserve male & reserve supreme champion) who sold for 4,800gns Carlisle October 2011. **Tamhorn Gibson ET** who sold for 7,000gns Carlisle October 2012. **Tamhorn Gladiator** who sold for 6,500gns Carlisle May 2013. **Whitstone Hurricane ET** who sold for 5,500gns Carlisle January 2014. **Droit Indiana (ET)** who sold for 6,000gns Carlisle May 2015. Recipients with calves at foot include **Woodview Abbey ET (Heifer)** who sold for 2,800gns at the 2nd Production Sale from the Woodview Herd Carlisle June 2006. His daughters include **Strathearn Cinderella ET** (female and reserve supreme champion) who sold for 4,000gns Carlisle February 2010; **Droit Deon ET** (reserve overall female champion) who sold for 5,800gns Carlisle May 2010. **College Valley Delilah ET** who sold for 3,400gns, **College Valley Ellie ET** who sold for 3,000gns and **College Valley Erica ET** who sold for 2,800gns at the College Dispersale Carlisle May 2012.

# ABERDEEN ANGUS

## UNDERSTANDING THE BREEDPLAN PERFORMANCE RECORDING INFORMATION IN THIS CATALOGUE

Only Aberdeen-Angus GROUP BREEDPLAN EBVs or INTERIM EBVs with Accuracy (Acc) can be validly compared between herds.

### ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait.

### ACCURACY

An accuracy value (Acc) is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives.

### CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

**DIR:** Direct calving ease indicates how this animal influences the birth of its progeny. Using a bull in the Top 1% for CE direct (+6.4) is predicted to result in approximately 15% fewer assisted calvings in 2 year old heifers compared with using a bull in the Bottom 1% (-10.6). This range is predicted to be smaller in cows.

**Remember that the dam's genetics and management are significant factors influencing calving ease in any mating.**

**DTRS:** Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

### BIRTH AND FERTILITY

**GL:** Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

**BWT:** Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

**SS:** Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

### GROWTH

**MILK:** 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

**200:** 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400:** 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600:** 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**MWT:** Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

## **CARCASE**

**CWT:** Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

**EMA:** Eye Muscle Area EBV (cm<sup>2</sup>) estimates genetic differences in eye muscle area of a 300kg dressed carcass. More positive EBVs indicate better muscling on animals.

**FAT:** Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcass. More positive EBVs indicate more subcutaneous fat and earlier maturity.

**RBV%:** Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcass. A more positive EBV indicates higher percentage yield for the 300kg carcass size.

**IMF%:** Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13<sup>th</sup> rib site in a 300kg carcass. Depending on market targets, larger more positive values are generally more favourable.

**Indexes** combine the EBVs with economic information for specific market and production systems to rank animals based on relative profit values.

### **Terminal index**

The Angus Terminal index is aimed at a commercial herd using Angus bulls over dairy cross cows to breed steers and heifers to turn off at 16 months of age. All progeny are destined for slaughter and no replacement females are selected from within the herd. There is some emphasis on calving ease while finishing steers at around 600 kg live weight (330 kg carcass weight) using a pasture based production system.

Use this index in a commercial herd to produce progeny for slaughter. The index has moderate emphasis on easier calving (ie getting a live calf with minimal human interference) while producing calves that will then grow quickly to market specifications at around 16 months of age. The index is focused on slaughter animals and does not account for maternal traits and is therefore not suited to breeding replacement females.

If you are using smaller framed cows or heifers in your herd, then you should also put extra emphasis on a higher Calving Ease Direct EBV when selecting a sire using this index.

### **Self Replacing index**

The Angus Self Replacing index is aimed at an Angus herd selecting replacement females from within the herd while breeding steers and excess heifers to turn off at 18 months of age. There is emphasis on calving ease and maternal traits while also looking to finish steers for slaughter at around 615 kg live weight (330 kg carcass weight) using a pasture based production system supplemented with extra rations during the finishing phase.

This Self Replacing index is also suitable to using Angus sires over mixed breed cows where replacement females are sourced from within the herd. There may be some hybrid vigour expressed in the progeny depending on the breed type of the cows used. Therefore you should consider placing extra emphasis on the Calving Ease EBVs (more positive) of the sire to allow for possible heavier birth weights of his calves due to hybrid vigour.

Use this index in both commercial and pedigree herds where you are balancing the requirements of selecting replacement females while also producing animals for slaughter.

The Aberdeen-Angus GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Aberdeen-Angus Cattle Society nor the ABRI oversee or audit the collection of this data.

## Aberdeen-Angus Percentile Bands for 2017 Born Calves

| Percentile Band | Calving Ease DIR (%) | Calving Ease DTRS (%) | Gestation Length (days) | Birth Wt. (kg) | 200 Day Wt (kg) | 400 Day Wt (kg) | 600 Day Wt (kg) | Mat Cow Wt (kg) | Milk (kg) | Scrotal Size (cm) | Carcass Wt (kg) | Eye Muscle Area (sq cm) | Fat Depth (mm) | Retail Beef Yield (%) | IMF (%) | Terminal Index | Self Replacing Index |
|-----------------|----------------------|-----------------------|-------------------------|----------------|-----------------|-----------------|-----------------|-----------------|-----------|-------------------|-----------------|-------------------------|----------------|-----------------------|---------|----------------|----------------------|
| Top Value       | +10.9                | +8.0                  | -4.5                    | -5.5           | +76             | +133            | +164            | +176            | +30       | +4.2              | +103            | +10.5                   | +2.5           | +4.0                  | +1.5    | +64            | +78                  |

All bulls entered at official Society sales have their Myostatin status displayed in the catalogue. The Myostatin nt821 gene is responsible for double muscling.

**Myostatin Status No Carrier**, means the bull does not carry the Myostatin nt821 gene.

**Myostatin Status Single Version Carrier** means the bull carries a single version of the Myostatin nt821 gene, but still accepted for registration by the Aberdeen-Angus Cattle Society

# BRITISH BLUE

## EXPLANATORY NOTES FOR CATALOGUES

Only British Blue GROUP BREEDPLAN EBVs or INTERIM EBVs with Accuracy (Acc) can be validly compared between herds.

### ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait.

### ACCURACY

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or it's relatives. Accuracy below 75% should be considered low.

### CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

**DIR:** Direct calving ease indicates how this animal influences the birth of its progeny.

**DTRS:** Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

### BIRTH AND FERTILITY

**GL:** Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

**BWT:** Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

**SS:** Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

### GROWTH

**MILK:** 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

**200:** 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400:** 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600:** 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**MWT:** Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

## **CARCASE**

**CWT:** Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

**EMA:** Eye Muscle Area EBV (cm<sup>2</sup>) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

**FAT:** Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

**RBY%:** Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

**IMF%:** Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13<sup>th</sup> rib site in a 300kg carcase. Depending on market targets, larger more positive values are generally more favourable.

## **INDEXES**

An index combines the EBVs with economic information (costs and returns) for specific market and production systems to rank animals based on relative profit values. Note that the different types of animals can give similar profit values, so you should also consider both the index and the component EBVs when selecting animals for your production system.

**BBB Carcase Profitability Index (£'s)** - Estimates the genetic differences between animals in net profitability per cow mated for an example commercial herd targeting the EU market with no marbling requirement. All progeny are assumed to be marketed at around 550-580 kg live weight (280-320 kg carcase weight) at approximately 19 months of age.

Bulls with a higher BBB Carcase Profitability Index will have a greater genetic potential to sire heavier finished progeny. As there are no maternal traits included in the calculation of the BB Carcase Profitability Index, bulls with a high Index will not necessarily be suitable for breeding heifer replacements.

**BBB Pedigree Breeding Index (£'s)** - This index (£ per cow joined) targets herds that breed their own replacement cows and bulls and slaughter progeny from large framed cows. Steer progeny are slaughter at around 16 months of age at 620 kg live weight (360 kg carcase weight). The main EBV emphases are on weight, carcase retail beef yield and calving ease. The index estimates the genetic differences between animals in net profitability per cow mated for a herd targeting the EU market with no marbling requirement. With this in mind, the index also identifies suitable replacement breeding animals by also considering the maternal and fertility traits of the animal. Therefore, both direct and daughters calving ease are included in the index.

This index is only reported for animals with at least moderate accuracy for the key traits. Animals must also be in the top 50<sup>th</sup> percentile or better for Calving Ease Direct, 400 Day Weight and Retail Beef Yield % EBVs.

The British Blue GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the British Blue Cattle Society nor the ABRI oversee or audit the collection of this data.

## British Blue Percentile Bands for 2016 Born Calves

| Percentile Band | Calving Ease DIR (%) | Calving Ease DTRS (%) | Gestation Length (days) | Birth Wt. (kg) | 200 Day Wt (kg) | 400 Day Wt (kg) | 600 Day Wt (kg) | Mat Cow Wt (kg) | Milk (kg) | Scrotal Size (cm) | Carcass Wt (kg) | Eye Muscle Area (sq cm) | Fat Depth (mm) | Retail Beef Yield (%) | IMF (%) | BBB Carcass Profitability Index | BBB Pedigree Breeding Index |

# BEEF SHORTHORN

## UNDERSTANDING THE BREEDPLAN PERFORMANCE RECORDING INFORMATION IN THIS CATALOGUE

Only Beef Shorthorn GROUP BREEDPLAN EBVs or INTERIM EBVs with Accuracy (Acc) can be validly compared between herds.

### ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait.

### ACCURACY

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or it's relatives. Accuracy below 75% should be considered low.

### CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

**DIR:** Direct calving ease indicates how this animal influences the birth of its progeny.

**DTRS:** Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

### BIRTH AND FERTILITY

**GL:** Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

**BWT:** Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

**SS:** Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

### GROWTH

**MILK:** 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

**200:** 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400:** 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600:** 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**MWT:** Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

## **CARCASE**

**CWT:** Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

**EMA:** Eye Muscle Area EBV (cm<sup>2</sup>) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

**FAT:** Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

**RBV%:** Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

**IMF%:** Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13<sup>th</sup> rib site in a 300kg carcase. Depending on market targets, larger more positive values are generally more favourable.

## **Terminal index**

The Shorthorn Terminal index is aimed at a commercial herd using Shorthorn bulls over dairy cross cows to breed steers and heifers to turn off at 19 months of age. All progeny are destined for slaughter and no replacement females are selected from within the herd. There is some emphasis on calving ease while finishing steers at around 580 kg live weight (310 kg carcase weight) using a pasture based production system.

Use this index in a commercial herd to produce progeny for slaughter. The index has moderate emphasis on easier calving (ie getting a live calf with minimal human interference) while producing calves that will then grow quickly to market specifications at around 19 months of age. The index is focused on slaughter animals and does not account for maternal traits and is therefore not suited to breeding replacement females.

If you are using smaller framed cows or heifers in your herd, then you should also put extra emphasis on a higher Calving Ease Direct EBV when selecting a sire using this index.

**Self Replacing index** - The Shorthorn Self Replacing index is aimed at a Shorthorn herd selecting replacement females from within the herd while breeding steers and excess heifers to turn off at 19 months of age. There is emphasis on calving ease and maternal traits while also looking to finish steers for slaughter at around 580 kg live weight (310 kg carcase weight) using a pasture based production system supplemented with extra rations during the finishing phase.

This Self Replacing index is also suitable to using Shorthorn sires over mixed breed cows where replacement females are sourced from within the herd. There may be some hybrid vigour expressed in the progeny depending on the breed type of the cows used. Therefore you should consider placing extra emphasis on the Calving Ease EBVs (more positive) of the sire to allow for possible heavier birth weights of his calves due to hybrid vigour.

Use this index in both commercial and pedigree herds where you are balancing the requirements of selecting replacement females while also producing animals for slaughter.

**Maternal Index** - The Maternal Index is designed for a commercial Beef Shorthorn cross herd that is focussed on breeding herd replacements and on weaning as many and as heavy calves as possible at 8 months of age. It estimates the genetic differences between animals in net profitability per cow joined for an example Beef Shorthorn Euro cross commercial cow herd targeting the production of pasture grown calves. Steers and heifers are weaned and marketed at an average of 350kg live weight at 8 months of age for further finishing or as replacement heifers.

The Beef Shorthorn GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Beef Shorthorn Cattle Society nor the ABRI oversee or audit the collection of this data.

## QR CODES

In this catalogue we have printed QR code for each animal, this will take you to the web page which will give you full information on pedigree, bar charts and photographs if available

### Step 1

Download and install a QR code app on your smartphone if you don't yet have one. Open your App Store, Market, Marketplace or App World application (for the iPhone, Android, Windows Mobile and BlackBerry platforms, respectively).

### Step 2

Search for "QR code reader," and then download and install a free app. The app should be named something to the effect of "QR Code Scanner" or "QR Scanner." There are paid versions of these kinds of apps, but the free ones work just as well.

### Step 3

Open the QR barcode app on your smartphone, and choose "scan from camera" or "scan QR code" from the main menu. A new window should open with a square in the middle of it.

### Step 4

Center the QR code in the middle of the square that's currently displayed by your QR barcode app. The app should automatically take a picture of the QR code for you when it has finished scanning the code. A new pop-up menu will appear, with the QR code information on it.

### Step 5

Click the link that was embedded in the QR code, this will direct you to the Society website.

**HEALTH AND SAFETY RULES  
HARRISON & HETHERINGTON LIMITED  
NOTICE TO ALL VISITORS AND TRADERS  
PLEASE READ AND OBSERVE  
THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

**AUCTIONEER'S TERMS & CONDITIONS OF SALE**

(Incorporating the Auctioneer's  
Terms and Conditions )

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
