BIO SECURITY RULES

HARRISON & HETHERINGTON LIMITED BORDERWAY MART CARLISLE

Notice to all Visitors and Traders

Please read and observe the following:

- Excessive dirty vehicles will not be allowed entry, therefore ensure vehicle is clean before arrival.
- All vehicles transporting livestock will be subject to a documentation check before entry to market site.
- All visitors and traders must ensure they wear clean clothing and footwear before entering market site.
- All visitors and traders using car park areas please use main entrance.
- All persons delivering livestock to mart must park on the hardcore area at the back of the site and then proceed along the designated route to the biosecurity control next to the supervisors office.
- Hauliers and farmers delivering livestock must disinfect their boots before and after loading or unloading.
- Livestock purchased or unsold will not be allowed to move unless an authorised "pass slip" has been issued by the main office.
- No livestock will be allowed to remain on the premises after a sale.
- Only staff, livestock hauliers, owners or their agents are permitted to load or unload livestock.
- Wash hands thoroughly when leaving livestock pannage areas.
- Please observe our staff's instructions at all times.

**Our on site Biosecurity Officer
will only be too pleased to give you assistance.**

BORDERWAY MART, CARLISLE CPH No – 08/067/8019

Timetable of Events:-

Thursday 29th September	Arrival of Stock 2pm - 6pm
Friday 30th September	Arrival of Stock 7am –9.00am

Pre-Sale Inspection

British Blue 9.30am - 10.00am

Blonde 10.00am

Aberdeen Angus 10.00am - 11.00am

British Blue Show - 10.30am

Sale -12 noon

Method Of Sale: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

Reserve Prices: Vendors shall have the right to refuse to accept the final bid for their animals, or to fix a Reserve Price, which must be notified to the Auctioneers in writing before or at the time their animal enters the Sale Ring. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price. All animals will be sold in guineas (105 pence) and a commission of 5.25% will be charged by the Auctioneers on all sales.

Commissions: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

Settlement And Clearance Of Stock: Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

Animal Welfare: Vendors and Purchasers should note the CODE OF PRACTICE published by the Livestock Auctioneers' Market Committee for England and Wales IS OPERATIVE IN BORDERWAY MART and that weakly, unhealthy or injured stock will be refused entry by the Auctioneers. Enquiries should be directed through the market office to the Auctioneers' ANIMAL HEALTH and WELFARE OFFICER (Mr Andrew Templeton).

Registrations: All stock in the sale are registered with the respective breed societies.

Insurance: A representative of H & H Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

ABERDEEN ANGUS

Conditions of sale - The Aberdeen Angus Cattle Society have adopted the Auction Rules and Conditions of Sale drawn up by the N.B.A. This Sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail.

Transfers: Official Pedigree Transfer will be effected by the Auctioneers and the Aberdeen Angus Society as soon as possible after the Sale. Full pedigrees will be transferred free of charge to all members.

Upset Price: There is an 'upset' price of 2200gns on bulls.

Society Levy: A further 1 ½ % will be charged as a Levy to the Vendor paid to the Aberdeen Angus Society.

Pre-Sale Inspection: "All animals (except in the case of bona-fide dispersals) are subject to pre-sale inspections by The Aberdeen Angus Cattle Society in order to establish identity and to prove a minimum standard. Such inspections however do not imply any liability or warranty by The Aberdeen Angus Cattle Society for animals sold, such liability remains the responsibility of the vendor. Animals are sold with all patent defects and any subsequent claim is against the vendor and not The Aberdeen Angus Cattle Society."

BRITISH BLUE

Conditions of sale - The British Blue Cattle Society have adopted the Auction Rules and Conditions of Sale drawn up by the N.B.A. The Sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail. Copies available on request from the British Blue Cattle Society.

Transfers: Official Pedigree Transfer will be effected by the Auctioneers and the Aberdeen Angus Society as soon as possible after the Sale. Full pedigrees will be transferred at a fee of £13.90 (+VAT) payable by the vendor.

Upset Price: There is an 'upset' price of 1500gns on bulls.

Society Levy: The British Blue Cattle Society's Sale levy amounting to 1% of sale price, will be deducted by the Auctioneers from the proceeds of sale.

Pre-Sale Inspection: All animals entered for the sale must be available for inspection in the sale premises by a panel of inspectors, including a qualified Veterinary Officer. The Inspectors will have regard to general health and genetic defects, particularly mouth, teeth, eyes, testicles, locomotion and general conformation. Any animal discovered with a genetic fault, disease, disorder or is considered by the panel to be not in a proper and healthy condition to be presented as representing a good specimen of the breed will be REJECTED and the Entry Fee forfeit. Animals will be placed in a crush for this inspection - as required by the inspectors. **No pedigree or grade registered stock, entered for the sale, shall have horns.**

Two Society Members will form an appeal committee, one of whom will be a society council member. The appeal committee will be elected prior to the sale. If any exhibitor feels the need to formally lodge an appeal against the result of an inspection, they must from the beginning speak ONLY to the Chief Inspector. He will then ask for a deposit of £20 from the exhibitor. The appeal committee will then carry out their own inspection of the animal and their decision will be final. The deposit will only be returned if the appeal is successful

BEEF SHORTHORN

Conditions Of Sale: The Beef Shorthorn will be sold under the Livestock Association Conditions of Sale.

Transfers: If the purchaser requires the pedigree to be transferred into their ownership, the purchaser will be required to pay a fee of £25+VAT.

Pre-Sale Inspection - As the sale is not an official Society Sale, no official Society inspection procedure is required. There will only be an Identification Inspection of the sale cattle.

BLONDE

Conditions Of Sale: The British Blonde Cattle Society have adopted the Auction Rules and Conditions of Sale drawn up by the N.B.A. This Sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail.

Transfers: Official Pedigree Transfers will be effected by the Auctioneers and the British Blonde Society as soon as possible after the Sale. A fee of £15 + VAT per lot will be charged to the Purchaser at the point of sale.

Upset Price: There will be an 'upset' price of 2000gns on bulls.

Society Levy: A Society levy of 2% of the sale price (after the deduction of Auctioneer's commission) will be charged by the Society on the sale of all animals. This levy will be deducted from the Vendor's statements by the Auctioneers, before settlement, and paid to the British Blonde Society.

Pre-Sale Inspection: All Animals entered for the sale must be available for inspection in the sale premises as per the timetable of events. An Official Inspector, appointed by the Society may order the rejection of any animal, in their opinion, is below the required standard of conformation and/or condition and does not represent a good specimen of the Breed.

IF THE INSPECTORS CONSIDER THERE HAS BEEN ANY PRE-INSPECTION PREPARATION DESIGNED TO DISGUISE AN UNACCEPTABLE CONDITION THAT ANIMAL WILL BE REJECTED.

The Veterinary Office will examine all animals forward, for general health and genetic defects, and any animal with a genetic fault, disease or disorder will be REJECTED. Animals will be placed in a crush for this inspection- as required by the Veterinary Officer. The Veterinary Inspection will form an integral part of the pre-sale inspection procedure.

ANY ANIMAL REJECTED DURING THE PRE-SALE INSPECTION WILL BE OFFERED IN SALE ORDER, BUT ONLY AT THE AUCTIONEERS DISCRETION.

CHAROLAIS

Conditions Of Sale: The Charolais cattle will be sold under the Livestock Association Conditions of Sale.

Transfers: If the purchasers requires the pedigree to be transferred Into their ownership, this will be at the purchasers own cost.

Pre-Sale Inspection: As the sale is not an official Society Sale, no official Society inspection procedure is required. There will only be an Identification Inspection of the sale cattle.

LINCOLN RED

CONDITIONS OF SALE: This Sale is held subject to the conditions of Sale drawn up by the NBA and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the NBA Conditions of Sale shall prevail.

TRANSFERS: A transfer fee per animal of £10 + VAT shall be paid by the purchaser

UPSET PRICE: A minimum selling price will apply as follows In-calf heifers 1000gns; and maiden heifers 750gns.

SOCIETY SALE LEVY: A Levy of 2% be charged and deducted from the vendor's statement before settlement and paid direct to the Lincoln Red Cattle Society.

Important Notice to Vendors

Arrival Of Stock: As per timetable of events (page 6).

Uk Tags/Tattoo Marks - All cattle entered for the Sale will have their UK Tags/Tattoo marks examined as an integral part of the pre sale inspection procedure. Any marks found to have faulty, incorrect or illegible marks will be REJECTED from the Sale. Vendors are therefore urged, in their own best interests, to examine the UK Tags/Tattoo marks of Sale cattle before the animal(s) leave their farm, so that faulty marks can be rectified in accordance with the required Society procedures.

No animal may be sold privately before being passed through the Auction Ring and FULL COMMISSION will be charged on the sale of any animal sold by private treaty after the auction. All such transactions MUST BE PASSED THROUGH THE AUCTIONEERS OFFICE.

Straw: A limited amount of bedding straw will be provided by the Auctioneers.

DRAFT SALE FROM THE LAVEROCK HERD Lots 29-39 (11 entries)

The Laverock herd have always been outwintered on big bale silage only. The herd has been closed for more than 20 years. Very beast has been bred on the holding. The last TB test was in April 2022, never having had a reactor since the 1950's. It has never been considered necessary to belong to a health scheme as the herd has never been bothered by modern ailments.

Sires used within the herd include:

Rumsden Fawkes – sired by £50,000 Thrunton Voldemort, grandson of Doonally New, outstanding sire of his time.

Maerdy Gabriel – sold for £30,000 in Perth.

Corrie Alan – sold for £19,000 to Ireland.

Laverock breeding goes back to Fleet Vibrant and Tattenhall Impeccable. Laverock Jesmor sired Laverock Fabio who sold for £14,000 in Stirling to two prominent breeders.

Dam: Chestnut Tree Marwood Miss S68 (XP94669)
 gd: Chestnut Tree Marwood Miss M5 (XP92122)

Homozygous Polled. Myostatin: 1 copy F94L; 1 copy nt821DEL11

AXHOLME AIRFIELD DEFENCE has been fertility tested, had a full veterinary bull health check and comes from a high health herd. He has been successfully shown from young. At 3 months old he was Reserve Native Champion at Southwell Show. He has since been Native Champion at Royal Lancashire Show and Crowle Show, Reserve Show Champion at Aylsham Show and won his class at Royal Norfolk Show. Despite the age difference, he had regularly been placed highly in his class. Alf has an excellent laid back temperament having worked regularly with injured veterans. Only reason for him leaving is that he is too closely related to our herd and is definitely ready to work

HEIFER Lot 41 (1 entry)

His sons include **Parsonage Drew** who won the Progeny Group with **Solway View Drambuie ET** (heifer) Border Club's Calf Show February 2009. **Tamhorn Crackerjack ET** (reserve intermediate male champion) who sold for 16,000gns, **Greystone Cannon** who sold for 11,000gns & **Brookfield Columbus ET** who sold for 10,000gns Carlisle May 2009; **Ballyhossett Duke** (male & supreme champion) who sold for 10,500gns & **Ridge Dean Dynamite ET** who sold for 7,000gns Carlisle September 2009; **Sharplaw Engineer ET** who was reserve male champion Border Club Calf Show February 2010; **Ridge Dean Dynamo ET** (male & supreme champion) who sold for 9,000gns, **Ridge Dean Delta ET** who sold for 9,000gns, **Woodview D Best ET** who sold for 7,800gns, **Woodview Dave ET** who sold for 6,200gns & **Ridge Dean Dumbledore ET** who sold for 5,500gns Carlisle February 2010; **Arcanna Dynamite ET** who sold for 7,500gns Carlisle May 2010; **Harestone Excalibre ET** who sold for 6,900gns, **Black N Blue Emperor ET** (male and supreme champion) who sold for 5,400gns & **Droit Dexter ET** who sold for 4,400gns Carlisle October 2010; **Norbreck Fergus** who was overall champion Border Club Calf Show Agri-Expo 2010; **Lyonpark Fortitude ET** was the male and overall champion at the Border Club's Annual Calf Show February 2011; **Belmore Emperor ET** Who Sold For 7,000gns Carlisle May 2011; **Tamhorn Ferdinand ET** who sold for 6,000gns Carlisle October 2011; **RATHLYON DAVE ET** who sold for 6,800gns & **Seaclan Duke ET** who was Male Champion and Reserve Overall Champion and sold for 6,200gns Carlisle January 2012. **Tanat Guardsman ET** who was male champion Border Club Calf Show February 2012. **Littlebank Fredie ET** who was Reserve Senior Champion and sold for 8,300gns, **Owlden Firebolt ET** who sold for 7,500gns and **Glenpark Frome ET** who sold for 6,000gns Carlisle May 2012. **Drews Goliath ET** who sold for 6,500gns Carlisle October 2012. **Osborne Flash** who sold for 6,500gns Carlisle January 2013. **Almeley Giggs ET** who sold for 7,000gns and **Graymar Gladiator ET** who sold for 6,000gns Carlisle May 2013 **Franks Hugger Mugger ET** who was Male and Supreme Champion and sold for 9,000gns Carlisle October 2013. **Newton Blues Geordie ET** was reserve Male Champion and sold for 5,200gns Carlisle January 2014. **Graymar Highflyer ET** who sold for 5,000gns Carlisle May 2014. **Kingside Inka Warrior ET** who sold for 5,200gns Carlisle Jan 2015. **Droit Irishman (ET)** who sold for 6,800gns Carlisle May 2015. **Littlebank Jimmy** who sold for 9,200gns Carlisle Jan 2016. His daughters include **Croftends Emma ET** who was overall champion Border Club Calf Show Agri-Expo October 2009 & female and overall champion Border Club Calf Show February 2010; **Low Longthwaite Diamond ET** who sold for 3,000gns Carlisle October 2010; **Graymar Fantasy ET** who sold for 5,500gns, **High Moss Darth Vadar ET** who sold for 3,700gns and **Penpeugh Elite** who sold for 3,500gns Carlisle May 2011; **Croftends Georgia ET** who was female & overall

champion Border Club Calf Show February 2012. **College Valley Goldie ET** who sold for 2,800gns at the College dispersal Carlisle May 2012. **Drumlone Fancypants ET** who sold for 6,600gns Carlisle May 2012. **Drumlone Fanfare ET** who sold for 4,500gns and **BLACK N Blue Fc UK Two** who was Reserve Female Champion and sold for 4,500gns and **Sharplaw Foxy lady ET** who sold for 4,200gns Carlisle May 2012. **Lukeroyal Giggle ET** who was Female Champion and sold for 2,600gns Carlisle October 2013. **Tweeddale Enhance ET** who sold for 4,500gns Tweeddale Dispersal Carlisle August 2015. **Dinmore Justina ET** who sold for 2,600gns Carlisle Jan 2016. **Owlden Imogen ET** who sold for 4,200gns Carlisle Jan 2018. **High Moss Oriana** sold for 3500gns & **Oak Tree Pinky** sold for 3200gns Carlisle Jan 2021. **Brownview Nelson ET won Junior Chmpion** then sold for 15,000gns at Carlisle in May 2021. His son **NEWPOLE PIER ROT** also sold for 10,000gns in the January 2022 british blue sale followed by **TOPSIDE RESPECT ET** also selling for a incredible 10,000gns. **Almeley Powershift** sold for 10,000gns and Carlisle May 2022. Also is daughter **Solway View Rihanna** at 6 months of age for 7,500 at Carlisle May 2022

FAROUK DE ST AMAND is out of **Hameau D Yvoir** and out of **Caroline De St Amand**. His sons include **Abbey View News Hawk** who sold for £6600, **Trent Valley Next Level** sold for £3000 Carlisle Online Sale 2020. **Littlebank Ned** who sold for £6200 Carlisle October 2020. **Oak Tree Navara** sold for 3500gns & **Littlebank Oreo** sold for 6000gns Carlisle Jan 2021. His son **HALLFIELD ORCA ET** also sold for 5,100gns in October 2021.

GIGA DU BOIS DE REMONT is by **Dafydd D'Ochain** out of **Elancee Du Vanova**. His sons include Littlebank Henri who sold for 5,500gns Carlisle May 2014. **Luce Water Isaac (ET)** who sold for 9,500gns Carlisle May 2015. **Lukeroyal Kracker ET** who sold for 7,000gns Carlisle May 2017.

GREYSTONE KELLOGS is by **Almeley Ginola** and out **Greystone Weetabix**. His sons include **Droit Neptune** sold for 3800gns & **Droit Noah** sold for 4200gns Carlisle October 2020.

NAYAKOU DU BOIS REMONT is by **GIGA DU BOIS DE REMONT** and out of **HILARITE D OCHAIN**. His son **STONEBYRES PAVAROTTI** sold for an incredible 8,500gns in January 2022.

PINNACLE HERO (ET) is by **Kilowatt D'Ochain (IS)** and out of **Rosemount Faith**. His sons include **Almeley Keeman** who sold for 5,500gns Carlisle May 2017. **Almeley Lallana** who sold for 7,000gns Carlisle May 2018. **Almeley Marhez** who sold for 9,000gns, **Almeley MaLaren** who sold for 8,500gns Carlisle May 2019. **Almeley New Balance** sold for £6600 & **Almeley Otto** sold for £5000 Carlisle Online Sale May 2020. **Almeley Nut -Cracker** sold for £6000 Carlisle October 2020. His daughter **ALMELEY OTTIE** also sold for 7,200gns at Carlisle in May 2021. Following on in January 2022 his son **ALMELEY ON TOP** sells for a incredible 8,500gns at Carlises British Blue sale. **Almeley Pepe** sold for 10,000gn, **Almeley Popular** 7,000 gns **Almeley Passion Wagon** 5,500 gns Carlisle May 2022

REINBECK RUBIN is by **Jardinier De La Bonne Raie** and out of **Reinbeck Isa Black**. His sons include **Newton Blues Chico ET** who sold for 11,000gns Carlisle May 2009.

TODHALL KINGDOM is by **Tamhorn Fernando** and out of **Todhall Frutella**. His sons include **Oxcroft Nightrider** sold for £3800 Carlisle Online Sale 2020 and **Oxcroft Prince** 7,000 Carlisle May 2022

INSPECTION CRITERIA AT SOCIETY SPONSORED SALES JAN 2015

MINIMUM HEIGHT WEIGHT AND SCROTUM DIMENSIONS

This document is published to help members select cattle of the right type and specification, for entry into prestigious sales, held under the auspices of the Society. It also sets out criteria for the Society's Volunteer Inspectors to work to, which in turn, facilitates uniformity across all Society sales. Apart from meeting the minimum standards stated below, pedigree cattle should also conform to the Society's Bylaws, number 1.1 of which states: -

"The definition of the breed's characteristics is as follows: -

A long, large bodied beef animal with fine bones, double muscle, sloping rump and hidden hips, strong legs and correct mouth. Coat colour can be black, white, blue, or any combination of these colours that is acceptable to the Council."

1. The ear tattoo should be clearly legible and the letters and numbers agree with the pedigrees. Animals born after 1 January 1998 require no tattoo, on condition that they have been double tagged, as per Ministry regulations
2. Animals must conform to minimum heights and weights specified by the Society's Council. See over for the detailed charts
3. Teeth and jaws should be correct in terms of position and bone structure. A degree of latitude shall be allowed where an animal is cutting teeth. The Chief Inspectors decision is final, with regard to acceptable jaw and teeth configurations. Animals with mildly defective teeth or jaws will be marked in yellow and allowed to be sold through the ring, in catalogue order, with an accompanying rostrum announcement; *'This animal has not fulfilled the Society inspection criteria in respect of jaws and teeth'*. Where it is a veterinary decision that the animal be rejected then the animal shall be rejected in the normal way, with no appeal, marked in red and not be permitted to be sold through the ring.
4. The testicles and sheath shall be checked for correctness. Testicles should be of good conformation and consistency, with the epididymis showing definition. The minimum circumference of the scrotum between 10 and 24 months is shown overleaf. Animals over 24 months must have a minimum scrotal circumference of 33cm.
5. All animals must be in good, healthy condition and free from signs of infectious diseases, such as Viral Warts, Live Ring Worm etc. (*A Veterinary certificate must accompany animals if previously treated, this treatment must have been carried out at least 14 days prior to the sale*), Mange, New Forest Disease, Lice.
6. All animals should be able to walk correctly, on the day of inspection, with no genetic defects. The general mobility of the animal should be acceptable for practical use and not be detrimental to the breed's reputation. Bulls with an exceptional conformation will be allowed a degree of latitude with regard to mobility

The Council of the British Blue Cattle Society would urge all potential vendors to adhere strictly to these notes when entering cattle into official sales and to seek advice, prior to the sale, if they are uncertain as to whether an animal will pass. This will avoid the disappointment of any of their cattle being rejected by the Inspectors.

Should any cattle be rejected, it is the vendor's responsibility to ensure that the Lot Number is sprayed in red at the time of inspection. Such cattle may be sold privately from the pens, the sale going through the auctioneer's books.

Rejected animals **may not** be sold through the pedigree or commercial ring at a Society sale

SAFETY

A Vendor must not enter for sale, any animal with a potentially dangerous temperament. The Society's Inspectors have the right to demand the immediate removal, from the sale and the sale premises, of any animal, which, in their opinion, demonstrates a temperament, which could be dangerous to the public

- All Animals Must Be Halter Trained No Animal Shall Have Horns
- It is a statutory requirement that any bull over the age of 12 months, sold through a public auction, shall have a ring in its nose
- The objective of the Official Society Inspection is primarily in place to raise the breed standard and the inspection panel's decision is intended as a purchasers guide only. Prospective purchasers should satisfy themselves as to the suitability of an animal for their particular requirements. By bidding for an animal the intended purchaser accepts the Societies and Auctioneers conditions of sale, the animal being theirs at the fall of the hammer.
- 3 Month Rule - No calf, whether pedigree or commercial, under the age of 3 months will be accepted for either the show, or sale

20	600	32	
21	630	33	
22	660	33	
23	690	33	
24	720	33	

Bulls over 24 months must have a minimum circumference of 33cms

GENERAL POINT

Notwithstanding the above minimum heights, weights for age and Scrotal acceptability, animals should also conform to breed type and be of good overall shape.

Revised January 2015

NOTICE TO PURCHASERS

The objective of the Official Society Inspection is primarily in place to raise the breed standard and the inspection panel's decision is intended as a purchasers guide only. Prospective purchasers should satisfy themselves as to the suitability of an animal for their particular requirements. By bidding for an animal the intended purchaser accepts the Societies and Auctioneers conditions of sale, the animal being theirs at the fall of the hammer.

The British Blue Cattle Society

Guide to looking after your new Bull

It is often, quite correctly said, that the bull is half the herd. This should mean that he is treated as being as important as all the other stock put together. What often happens, in practice, is that he is lucky if he is given half the care and attention that others receive. This is in spite of being possibly, the most expensive single animal in the herd.

The first thing to do, when buying, or hiring a new bull, is to plan ahead. Do not rush out to find a bull today, because you want to use him tomorrow. First, be sure about what kind of bull you want and, how many you need and give yourself time to get the right ones. How many you need, depends, not just on the size of the herd but also on the breeding season. It is the number of cows per day, when working, which matters, not the total number of cows.

Another reason for planning ahead is to allow time for the bull to settle in. Leaving home for a young bull is just as big a wrench, as it is for your children when they go to 'big school', or leave home. Some bulls are affected by the stress of travel, showing and the sale ring. Stress can disrupt the reproductive system. Some bulls will have poor semen quality for up to two months, following transport. By the time poor results are noticed and a vet, like myself, gets around to looking at the semen, the situation is back to normal. The wise farmer uses this period for quarantine and settling in.

You should, of course, always buy bulls from a reputable source, for both quality and health. As far as reproduction goes – size does matter but it is the testicles, rather than any other anatomical feature. Scrotal circumference is a good 'rule of thumb' indicator of a bull's capacity and you should be looking for 31cm+. However, remember that bulls are still maturing in this respect, up to 2 years of age, or so, so do not overtax them when young.

Some bulls will be 18 months old, or more, before beginning to produce decent semen. British Blue bulls being warranted from 20 months. Give your bull a gentle introduction to the herd. Just give a small group of females at first, (preferably heifers, for a young bull). Young Blues are often unbalanced by their large back-ends, and, if they cannot get a good grip on the cow, will do an involuntary backward somersault, at the critical moment. Present a young 'Blue' with a large Holstein and you are in "It's a business doing pleasure with you" territory!

These are simply matters of common sense; a young bull will not have the capacity, skill, or psychological strength to cope with being suddenly turned out with a herd of large, bossy cows.

Always keep a close check on your bull in the early days. Watch him to ensure he is not having problems with service and, that his libido is good. Check the females regularly for pregnancy. If there is a problem you need to know quickly.

Finally, do not forget his psychological development. Few bulls are natural born killers. Those that turn nasty are mostly made so, by lack of attention and by only being handled for unpleasant purposes.

Keeping a tractable, well-behaved bull takes time and effort. He should be handled and put through handling facilities regularly, for no reason other than to give him a reward. He should have comfortable quarters and his feet etc., should be well cared for. Your bull can make a great contribution to your business: Look after him and he will look after you!

By kind permission of The Blue Cattle Society of Ireland

EXPLANATORY NOTES FOR CATALOGUES

Only British Blue GROUP BREEDPLAN EBVs or INTERIM EBVs with Accuracy (Acc) can be validly compared between herds.

ESTIMATED BREEDING VALUES (EBVS)

The EBV is the best estimate of an animal's genetic merit for that trait.

ACCURACY

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives. Accuracy below 75% should be considered low.

CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

DIR: Direct calving ease indicates how this animal influences the birth of its progeny.

DTRS: Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

BIRTH AND FERTILITY

GL: Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

BWT: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

SS: Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

GROWTH

MILK: 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

200: 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400: 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600: 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

MWT: Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

CARCASE

CWT: Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

EMA: Eye Muscle Area EBV (cm²) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

FAT: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RBV%: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

IMF%: Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13th rib site in a 300kg carcase. Depending on market targets, larger more positive values are generally more favourable.

INDEXES

An index combines the EBVs with economic information (costs and returns) for specific market and production systems to rank animals based on relative profit values. Note that the different types of animals can give similar profit values, so you should also consider both the index and the component EBVs when selecting animals for your production system.

BBB Carcase Profitability Index (£'s) - Estimates the genetic differences between animals in net profitability per cow mated for an example commercial herd targeting the EU market with no marbling requirement. All progeny are assumed to be marketed at around 550-580 kg live weight (280-320 kg carcase weight) at approximately 19 months of age.

Bulls with a higher BBB Carcase Profitability Index will have a greater genetic potential to sire heavier finished progeny. As there are no maternal traits included in the calculation of the BB Carcase Profitability Index, bulls with a high Index will not necessarily be suitable for breeding heifer replacements.

BBB Pedigree Breeding Index (£'s) - This index (£ per cow joined) targets herds that breed their own replacement cows and bulls and slaughter progeny from large framed cows. Steer progeny are slaughtered at around 16 months of age at 620 kg live weight (360 kg carcase weight). The main EBV emphases are on weight, carcase retail beef yield and calving ease. The index estimates the genetic differences between animals in net profitability per cow mated for a herd targeting the EU market with no marbling requirement. With this in mind, the index also identifies suitable replacement breeding animals by also considering the maternal and fertility traits of the animal. Therefore, both direct and daughters calving ease are included in the index.

This index is only reported for animals with at least moderate accuracy for the key traits. Animals must also be in the top 50th percentile or better for Calving Ease Direct, 400 Day Weight and Retail Beef Yield % EBVs.

The British Blue GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the British Blue Cattle Society nor the ABRI oversee or audit the collection of this data.

The British Blue Superior Carcase Sire Listing Scheme

The eligibility of a bull to qualify for ‘Superior’ status is as follows:

1. **Must be fully registered**
2. **Must come from a herd that is ‘Breedplan’ recorded**
3. **Must be under 36 months of age at the point of sale**
4. **Must be DNA tested**
5. **Must be officially transferred to the new owner**
6. **Must achieve the following ‘Breedplan’ EBVs:**
 - Retail Beef Yield (RBY) – Top 30%**
 - 400 Day Wt – Top 30%**
 - Eye Muscle Area (EMA) – Top 50%**
 - Carcase Profitability Index (CPI) – Top 50%**

EBLEX suggest that ‘selecting a sire with the right genetics could increase the profitability of a 50 cow suckler herd by £1,500 to £2,000 a year’ or £7,500 to £10,000 or more, over the life of a bull.

The Aim of the Scheme

The aim of the scheme is to identify young sires, of high genetic merit, that will provide meaningful financial benefit to commercial purchasers when used in their commercial herds.

The scheme also provides a major incentive for Pedigree Breeders to record their herd and to make available eligible bulls for sale, the interest for such, hopefully being reflected in enhanced demand.

Meat Buyers Seek High EBV Sires

The Scheme also gives meat buyers a ‘Point of Reference’ when sourcing quality British Blue X commercial cattle. Increasingly buying and being associated with animals of high genetic merit, is becoming more important. This is definitely so with meat procurement officers sourcing commercial cattle for the main supermarket groups, the genetics within such animals result in higher retail meat yields and higher profit. This has recently been borne out by meetings that your Society has had with those responsible for buying cattle for the major supermarket groups, hence the introduction of this ‘Superior Sire Listing Scheme.’

For a list of qualifying sires, please visit: - www.britishbluecattle.org/superiorcarcasesirescheme
or contact the Society Office

Tel: 01768 870522 Email: info@britishbluecattle.org

BBCS reserves the right to makes changes to the terms and conditions of this scheme at its sole discretion

QR CODES

In this catalogue we have printed QR code for each animal, this will take you to the web page which will give you full information on pedigree, bar charts and photographs if available

Step 1

Download and install a QR code app on your smartphone if you don't yet have one. Open your App Store, Market, Marketplace or App World application (for the iPhone, Android, Windows Mobile and BlackBerry platforms, respectively).

Step 2

Search for "QR code reader," and then download and install a free app. The app should be named something to the effect of "QR Code Scanner" or "QR Scanner." There are paid versions of these kinds of apps, but the free ones work just as well.

Step 3

Open the QR barcode app on your smartphone, and choose "scan from camera" or "scan QR code" from the main menu. A new window should open with a square in the middle of it.

Step 4

Center the QR code in the middle of the square that's currently displayed by your QR barcode app. The app should automatically take a picture of the QR code for you when it has finished scanning the code. A new pop-up menu will appear, with the QR code information on it.

Step 5

Click the link that was embedded in the QR code, this will direct you to the Society website.

ABERDEEN ANGUS

UNDERSTANDING THE BREEDPLAN PERFORMANCE RECORDING INFORMATION IN THIS CATALOGUE

Only Aberdeen-Angus GROUP BREEDPLAN EBVs or INTERIM EBVs with Accuracy (Acc) can be validly compared between herds.

ESTIMATED BREEDING VALUES (EBVs)

The EBV is the best estimate of an animal's genetic merit for that trait.

ACCURACY

An accuracy value (Acc) is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives.

CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

DIR: Direct calving ease indicates how this animal influences the birth of its progeny. Using a bull in the Top 1% for CE direct (+7.0) is predicted to result in approximately 15% fewer assisted calvings in 2 year old heifers compared with using a bull in the Bottom 1% (-10.2). This range is predicted to be smaller in cows.

Remember that the dam's genetics and management are significant factors influencing calving ease in any mating.

DIRS: Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

BIRTH AND FERTILITY

GL: Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

BWT: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

SS: Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

GROWTH

MILK: 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

200: 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400: 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600: 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

MWT: Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

CARCASE

CWT: Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

EMA: Eye Muscle Area EBV (cm²) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

FAT: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RBV%: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

IMF%: Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13th rib site in a 300kg carcase. Depending on market targets, larger more positive values are generally more favourable.

Indexes combine the EBVs with economic information for specific market and production systems to rank animals based on relative profit values.

Terminal index

The Angus Terminal index is aimed at a commercial herd using Angus bulls over dairy cross cows to breed steers and heifers to turn off at 16 months of age. All progeny are destined for slaughter and no replacement females are selected from within the herd. There is some emphasis on calving ease while finishing steers at around 600 kg live weight (330 kg carcase weight) using a pasture based production system.

Use this index in a commercial herd to produce progeny for slaughter. The index has moderate emphasis on easier calving (ie getting a live calf with minimal human interference) while producing calves that will then grow quickly to market specifications at around 16 months of age. The index is focused on slaughter animals and does not account for maternal traits and is therefore not suited to breeding replacement females.

If you are using smaller framed cows or heifers in your herd, then you should also put extra emphasis on a higher Calving Ease Direct EBV when selecting a sire using this index.

Self Replacing index

The Angus Self Replacing index is aimed at an Angus herd selecting replacement females from within the herd while breeding steers and excess heifers to turn off at 18 months of age. There is emphasis on calving ease and maternal traits while also looking to finish steers for slaughter at around 615 kg live weight (330 kg carcase weight) using a pasture based production system supplemented with extra rations during the finishing phase.

This Self Replacing index is also suitable to using Angus sires over mixed breed cows where replacement females are sourced from within the herd. There may be some hybrid vigour expressed in the progeny depending on the breed type of the cows used. Therefore you should consider placing extra emphasis on the Calving Ease EBVs (more positive) of the sire to allow for possible heavier birth weights of his calves due to hybrid vigour.

Use this index in both commercial and pedigree herds where you are balancing the requirements of selecting replacement females while also producing animals for slaughter.

The Aberdeen-Angus GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the Aberdeen-Angus Cattle Society nor the ABRI oversee or audit the collection of this data.

All bulls entered at official Society sales have their Myostatin status displayed in the catalogue. The Myostatin nt821 gene is responsible for double muscling.

Myostatin Status No Carrier, means the bull does not carry the Myostatin nt821 gene.

Myostatin Status Single Version Carrier means the bull carries a single version of the Myostatin nt821 gene, but still accepted for registration by the Aberdeen-Angus Cattle Society

**HEALTH AND SAFETY RULES
HARRISON & HETHERINGTON LIMITED
NOTICE TO ALL VISITORS AND TRADERS
PLEASE READ AND OBSERVE
THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's
Terms and Conditions)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
